Thanks for the update. It would be great if Tim could circle back with Charis to give her an update.

Thanks, Suzanne. Tim has been coordinating with Tom Coda and Sara to formulate a response to Charis. Tom got back to him with some answers which they plan to discuss soon (hopefully this week).

Ex. 5 - Deliberative Process

Would you like me to ask Tim to give Charis an update on where things stand?

Hi Scott –

I hope you are feeling better today! I wanted to follow up with you on this request from Charis. I forwarded this message to Carl who replied that he would defer to Sara Laumann and you for a response. You are probably digging out from emails, so I wanted to call this one to your attention.

Thanks,

Suzanne

Charis,

Sorry for the delayed response as I misplaced this in my inbox and ran across it today in trying to make sure I was keeping up on emails that required my action.

Given the language in WAQSR Chapter 8, Section 3 (c)(iii)(D) "Actions which implement a decision to conduct or carry out a conforming program such as prescribed burning actions which are consistent with a conforming land management plan." it implies to me much more that following a prescribed burn management program as it specifically lists "a conforming land management plan". As such, I cannot say that following the State's Smoke Management Program is sufficient to say that prescribed burning actions are exempt.

I would suggest looking into what other BLM is doing elsewhere in respect to General Conformity for prescribed fire in nonattainment areas and then we can further discuss.
